# BILL OF FACTS

## Historical Society Of America

INDEX, VOLUME VII

BARRINGTON, RHODE ISLAND

MARCH - DECEMBER, 1950

This index covers Volume VII of Steamboat Bill of Facts-- or all issues of 1950. Page numbering of the issues for 1950 is:

<u>Date of Issue</u>	<u>Serial No.</u>	<u>Volume</u>	<u>Pages</u>
March, 1950	33	vii	1 - 28
June, 1950	34	vii	29 - 52
September, 1950	35	vii	53 - 76
December, 1950	36	vii	77 - 100

The index comprises three lists: SUBJECTS & TITLES, AUTHORS, and VESSELS. The last, by far the longest, will however be the quickest means of locating information on a specific vessel whose name is known. For more general reference, SUBJECTS & TITLES will be useful. Entries include cross-reference to principal bodies of water, and steamship companies. The AUTHORS list covers only authors of Steamboat Bill articles, and editors of regular sections. It does not include authors of books reviewed.

Many thanks to New York Chapter members Marjorie Borton, Edith J Griffin, Frederick Shipley and James Wilson, who compiled this index.

This index is distributed free to SSHA members. Price to others, \$1.00 postpaid. Order from SSHA Secretary: Edwin A Patt, 53 Annawamscutt Road, West Barrington, Rhode Island.

### \*\*\* SUBJECTS AND TITLES \*\*\*

Age of Vessel, Telling by Official Number 84  
 Agwilines 70

## FOR THE BLUE PENCIL

- ELIZABETH MONROE SMITH 213279 wrongly identified as 135990 in SB 12/46 p.423, 6/48 p.40, 9/48 p.65, 12/48 p.89, and Index Vols. III-V.
- GAY HEAD 252510 wrongly identified as 252210 in Index Vol. VI.

## \* \* \* V E S S E L S \* \* \*

A few explanations may help in using the VESSELS list. All craft named in the text have been included, with the page number of each reference. For uniformity's sake, the system of alphabetizing used in previous Steamboat Bill indexes (and formerly in Merchant Vessels of the United States) has been retained in preference to the system now used in the latter publication.

Vessels are listed under every name which appears in the text. An additional listing is made of a vessel's original name, if one is known to SB but not mentioned in the text. All entries under original names list all subsequent names, and all page references to that vessel under any name. Entries under a subsequent name give the original name as cross reference, but list page numbers only where the subsequent name is mentioned.

The history of each vessel as given in the pages of SB has been accepted for indexing purposes. Previous volumes of SB have been checked, but no additional research outside of SB has been attempted. We hasten to add that neither your Editorial Board nor SB contributors are infallible (see Blue Pencil item above!) Members finding an error in vessel identification or history are requested to write details to James Wilson, 215-28 47th Avenue, Bayside 61 N. Y.

Names such as COLONEL-, GENERAL-, ROBERT-, WILLIAM-, are either spelled out or abbreviated in the same way that the name actually appears on the vessel's name boards, to the best of our knowledge.

No attempt at detailed identification has been made, except where more than one vessel of the same name appears in this index; or where identity (or non-identity) of a like-named vessel in a previous volume of SB must be shown. In such cases craft are distinguished (1) by official numbers, if known, (2) by building dates, if no number is known, or (3) by more general dating, or geographic location, if neither (1) nor (2) is available. Where a ship bore both a U. S. and a foreign official number, the number appropriate to the name listed is given.

Modern U. S. Navy vessels, and merchant ships taken into military service, are identified by class symbol and serial number, if known. Thus: BETELGEUSE (AK11). Older vessels and those whose numbers are unknown are designated USS. Similarly, USCG - Coast Guard; USLHS - Lighthouse Service; CSS - Confederate Navy; HMS - British Navy; HMCS - Canadian Navy; and so on.

The following abbreviations and symbols are also used in the VESSELS list:

- |   |   |
|---|---|
| a, b, c, etc., before name, indicates sequence of names for same vessel, <u>a</u> earliest. | s. before date, indicates time vessel was in service                              |
| B before number, indicates British official no.   | * before page number indicates an illustration.                                   |
| blt. before date, indicates building date.  | <u>Underlining</u> indicates a correction of spelling or other error in the text. |
| C before number, indicates Canadian official no.  | Unprefixed numerals, usually of six digits, are U. S. official numbers.           |
| c. before date, indicates approximation (circa).  |   |
